Professional Summary

I am a detail-oriented software developer with a passion for building scalable web applications and solving complex problems. With proficiency in HTML5, CSS, JavaScript, React, and Node.js, I have experience developing full-stack solutions. I am eager to contribute to innovative projects and grow as a developer in a collaborative environment.

Technical Skills

- **Programming Languages:** HTML5, CSS, JavaScript, Python
 - **Frameworks/Libraries:** React, Node.js, TypeScript
 - **Databases:** MySQL & PostgreSQL
 - **Tools/Platforms:** Git, GitHub
 - **Other Skills:** API development, debugging, Agile methodologies
-

Professional Experience

First Class Pipefitter

Superior Maintenance and Piping – Aiken, SC
March 2024 – Present

- [Describe your role, responsibilities, and achievements using action verbs.]
- Example: "Developed and maintained full-stack web applications using React and Node.js, enhancing user experience and reducing page load times by 30%."
- Example: "Collaborated with a cross-functional team to implement new features, ensuring seamless integration with APIs and databases."

First Class Pipefitter

Craft and Technical Solutions – Norfolk, VA
2023-Feb 2024

The main pipefitter for this company. I was responsible for completing all industrial pipefitting/conduit tasks, including prepping pipe to get it ready to weld, measuring, cutting pipe, fitting pipe, and collaborating with a team of welders and iron workers to ensure all projects are completed on time. I utilize power tools, hand tools, and read blueprints to accomplish projects in a timely and efficient manner. I have obtained multiple certifications, including heavy machinery operation (scissor lift, forklift, JLG, etc.), lockout/tagout: control of hazardous energy, fall protection safety, and confined spaces.

- Leadership role on the team as a pipefitter
- Entrusted with pipefitting expertise
- Excellent communication skills
- Have taken advantage of every opportunity to advance my skill set

Marine Hydraulics International

2010-2023

First Class Pipefitter

Working collaboratively with a team, I was responsible for ensuring that pipefitting projects were completed in a timely manner. I worked on a host of Naval ships and utilized knowledge of hydraulic systems, waste systems, high, medium & low pressure (air), boiler systems, and a multitude of other systems. I worked my way up the company, starting as a helper” and finishing as a First Class Pipefitter. I accomplished many specialized trainings and was entrusted with various administrative/leadership roles as well.

- Responsible for communicating with Work Authorization Form coordinators to accomplish tagging out various ship systems to start jobs for the team
 - Entrusted to manage, organize, and distribute materials for multiple projects
-

Education

Software Coding Bootcamp
University of Chapel Hill, NC
April 2025

Projects

Piano Pulse

- "Developed a 12-key virtual piano application using HTML, CSS, and JavaScript, integrating audio playback and responsive design for user engagement."
-

Certifications

- [Certification Name, e.g., AWS Certified Developer, Microsoft Azure Fundamentals]
 - [Other certifications, e.g., FreeCodeCamp, Codecademy, etc.]
-
